Riven Shakes (hand split wooden roof shingles made in the historically correct process).

The tiles are 13”- 14” long and 3”- 5”wide. They should be laid with an exposed face of 115mm for Oak, 125mm for Larch and 200mm for Cedar (on roof pitches over 25 degrees) and an expansion gap of approx. 5mm between the edges of the tiles.

Oak -£90.00 per square meter sold in units of 1/2m2 for £45 OS1

Larch - £60 per square meter sold in units of 1m2 LS1

Re sawn Cedar - £70 sold in units of 1.5m2 WRCSH

Ridge/Hip/Valley packs.

These are selected wide, flat tiles that are ideal for ridges, valleys etc. The tiles are 6” + wide:

Oak - £70.00 per linear mtr run (both sides) – 20 tiles per pack OR1

½ and ¾ length eave packs.

These tiles are perfect for the build-up of the eaves and also for creating a kick out on roofs with changes of angle in the pitch:

Oak ½ tiles - £40 a pack OS2

Oak ¾ tiles - £40 a pack OS3

For Oak shakes we would recommend 50mm x 2.65mm s/s Annular Ring Shank nails. At this size you will need approx. 1 Kg per 2.5 m2 - £16.00 per Kg (other sizes are available). SS15

Western Red Cedar Shingles.

These tiles are machine sawn from Canadian Cedar and we only stock the prime quality tiles (Blue Label Certigrade). The shingles are 400mm long and vary in width from 75mm – 250mm. The tiles should be laid with a 125mm exposure on a roof with a pitch over 22 degrees and a 95mm exposure on a roof between 14 and 22 degrees. There should be a 5mm expansion gap between tiles:

Blue label Cedar Shingles - £65 per pack (a pack covers 2.2 m2 at a pitch over 22 degrees or 1.7 m2 on a lower pitch) WRCS1

Red Label Cedar shingles - £45 per pack (a pack covers 2.2 square meters and are best used for walls) – WRCS2

Cedar Ridge tiles - £65 per 4.5 linear meter pack. WRCR1

For Cedar Shingles we would recommend 31mm x 1.8mm S/S Annular Ring Shank nails.
1 Kg will cover 4 packs of tiles. £16 per Kg. SS13
